Capabilities Statement

Industrial Field Maintenance LLC (DBA - IFM) is a mechanical contractor company with a major focus on safety. Our principal office is located in Ewing, Kentucky. We are a family-owned steel and construction service company operating steel fabrication shops that provide turnkey services in maintenance and installation.

Industrial Field Maintenance offers a team of professionals experienced in a variety of crafts. Our team specializes in steel fabrication and erection, pressure piping fabrication and installation, and offer a wide range of maintenance services. We leverage our experience to deliver the highest levels of safety, quality and performance.

Our motivation and commitment to your project is an unrelenting pursuit of our goal and commitment to excellence that will enable IFM to attain success in your next project.

Core Competencies

- Steel Fabrication & Erection
- Pressure Piping Fabrication & Installation
- Crane & Rigging Services
- Outage/Maintenance Services
- Boiler Repair
- Mill Wright Services
- Industrial Painting
- Plasma Cutting

Differentiators

Depending on classifications, employees are trained in OSHA 30, equipment specific operation, NCCER advance rigging/signal/ crane, NCCO crane training, National Board "R" Stamp, multiple welding codes, and site-specific training as we maintain construction and fabrication industry certifications. IFM has also worked over 500,000 hours without a loss time accident (LTA) or OSHA recordable incident. We have the ability to provide certified piping fabrication.
